

# GOD'S TIMING

## QUESTIONS

1. When has God been early?
2. When has God been late?
3. When has God been right on time?

Because God is eternal and we're not (yet), our sense of timing doesn't always match with God's. That can lead to impatience on our part—we just don't have nearly as much time as God has, so we want God to do things for us faster. Ask the three questions above for each of the items listed below. There are some blanks for you to add your own.
