

# LEADERS In My Church

Consider three time periods: Past, Present, and Future.  
Now ask about the leaders for your church in these three time periods.

**PAST**—Who were the leaders of your church in the past?

**PRESENT**—Who are the leaders of your church right now?

**FUTURE**—Who will be the leaders of your church in the future?

If the young people in your church aren't already functioning in some leadership roles, it's time to start. Begin by asking God to give you ideas of where you can best serve. Then go to the people serving there and ask them if you can assist them and if they are willing to train you so you can serve as well. If nobody is doing what God wants you to do, ask the pastor or other church leaders if you can start leading in the area in which God has tapped you to lead. One place often overlooked by young people is to lead in Youth Sabbath School. Ask your Youth SS leader if you can assist, and if they will mentor you in leadership.
